WHAT IS 'CAREER NEWS' ALL ABOUT?

Career decisions are some of the most important ones of your life, so getting help in making those decisions is vital.

Career News is one source of information available to you.

Career News will be published fortnightly throughout the year, providing information about how to **choose a career**, about **information sessions** being held on various courses and careers, **Open Days** at institutions where you might want to study, **Career Expos**, insights into a number of **careers**, and where you can get help.

Students who do their research during Year 10-12 usually find it easier to make some career decisions at the end of Year 12.

HOW CAN I CHOOSE A CAREER?

Many people say that basically they would like a job they **enjoy**, with the possibility of earning a reasonable **income**. So **how do you choose that job?**

Firstly, keep in mind that there isn't just one perfect job for you. There are several jobs that would suit you well, so you need to **explore the possibilities**.

First, think about what you **enjoy doing**.

For example, is it sport-related, scientific, reading/writing-related, helping people, information technology-related?

What do you enjoy **doing in your spare time?**

What **subjects** do you excel in at school?

How important is it that you earn a lot of **money?**

Answering questions such as these will set you on a path to making some decisions.

If you like science, what type of science do you prefer – physics, chemistry, biology?

If you are creative, what is your speciality – music, drama, art, design?

If it is geography, perhaps you could be interested in urban planning, mapping or surveying.

If it is health, perhaps it is nursing, nutrition or public health.

If it is physics and maths, perhaps engineering.

Don't look too far ahead – you are not deciding on a life-time career. You will have several careers.
